

PVCC Collection and Contribution Policy & Procedures

The collecting, counting, depositing and reporting of the church's offering are very important functions. God demands excellence in this area and the congregation and our insurance providers require accountability and accuracy. The following policy and procedures are intended to ensure the church is a good steward of the funds entrusted to it.

1. At all times, at least two individuals will be in custody of the offering until the cash is counted.
2. All money (cash and checks) must be deposited within 48 hours.
3. All counters of the monies must be approved by the Administration Team. Initial training will be done by the contributions secretary. The Administration Team will ensure that two unrelated counters will be available each week.
4. The record on all contributions will be maintained in two secure locations. One location will be on a computer at the church with access controlled by a password retained by a person selected by the Administration Team.
